

Question Guide

Reiterate that participants do not have to answer any question they are not comfortable with. Recording can be stopped at any time. Participants invited to interview will still receive \$20.00 supermarket eGift card.

Ask demographic information:

- What is your age?
- Which gender do you identify as?
- Which ethnicity(ies) do you identify with?

“Can you tell me about your experience, in your own words, about a time when you discussed or wanted to discuss cannabis-use with your GP to manage your endo symptoms?”

Prompts / Follow up Questions (if not already answered):

- How long ago did this happen?
- What region were you in when you had (or wanted to have) the discussion?
- Can you tell me about when you initially considered using cannabis for your endometriosis?
- Can you tell me about why you used / desired to try cannabis for endometriosis management?
- How did you feel?
- What would you say made you feel supported or not so supported during this experience?
- How would you say this experience has affected your relationship with your GP or other GPs, if at all?
- Have you ever used and/or are you currently using cannabis to manage endo symptoms? If so, how does it work for you?
- What would you like from your GP around using cannabis to manage your endo symptoms?
- Is there anything else that we haven't covered in this interview that you would like to tell me about?
